BREATHING NEW LIFE INTO KENNEDY ARENA

For over 40 years, the J.F. Kennedy Civic Arena has proudly served generations of Romans and residents of surrounding areas. Since its establishment in 1964, the aging facility has served the Rome community well.

Now, Father Time has taken his toll on the Arena, making the renovation project a necessity. Proposed renovations and an expansion of the facility will allow the Kennedy Arena to continue to serve the community for many more decades.

The renovation of Kennedy Arena is a project that will have a profound and positive impact on the quality of life in Rome and the surrounding communities. More than 34,000 skaters used the facility during the 2005-2006 season alone.

The renovated facility will not only enhance existing winter recreational activities and service existing users, but will also allow for additional off-season uses such as midnight basketball, trade shows, and community events.

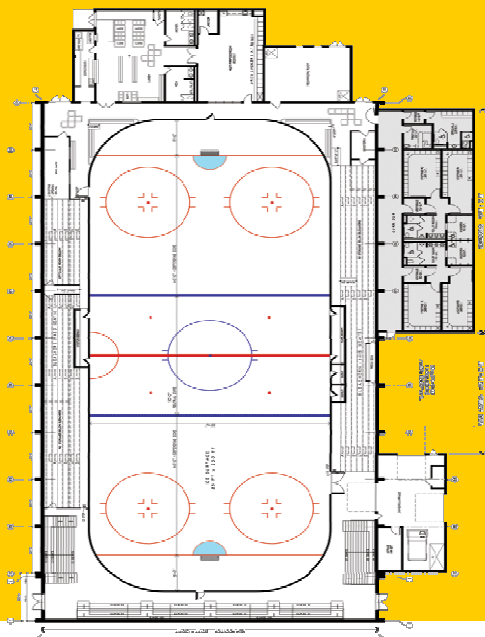

Mayor James F. Brown is joined by the Rome Grizzlies
